

MICHAEL G. MCINTIRE

Chief Technology Officer

Michael McIntire joined The Graham Company as Chief Technology Officer in 2019. He is responsible for leading the development and implementation of Graham's corporate and customer facing technology strategy. Michael also leads Graham's outreach to the BrokerTech and InsureTech communities, working to bring cutting edge products and services to solve our clients most difficult risk management challenges. He brings over 20 years of experience as a technology executive with a focus on driving innovation and improving the customer experience.

Before joining Graham, Michael was the Director of CIO Advisory at a national consulting firm that delivered strategic finance and technology services. His focus was providing clients IT leadership services, IT due diligence, assessments of IT and cyber-security practices, strategic planning, and cloud architecture development. Prior to this role, Michael was the CIO for a large government consulting firm focused on servicing federal civilian and military agencies. He led the corporate technology organization responsible for a broad scope of functions including; technology strategy, cyber security, enterprise applications, and IT operations for the company and its clients.

Michael's educational background includes a Bachelor of Science in Finance and Management Information Systems, along with a Master of Business Administration (MBA) and Finance. He also holds several certifications including his Certified Information Systems Security Professional (CISSP) and Project Management Professional (PMP).
