The Graham Company's Jeffrey Spatz Receives Mid-Atlantic Construction Safety Council Safety Professional of the Year Award 2012

PHILADELPHIA, PA – November 5, 2012 – [The Graham Company](#), one of the Mid-Atlantic region's largest insurance and employee benefits brokers, today announces that Jeffrey A. Spatz, CHST, Senior Safety Consultant, was named Safety Professional of the Year by the Mid-Atlantic Construction Safety Council (MACSC) at the Council's 15th Anniversary & Awards Dinner on Saturday, November 3.

"Over the course of more than two decades in construction safety, Jeff has demonstrated his expertise, work ethic and genuine passion for worker safety and health," said Dennis Dougherty, president of MACSC. "It is for these reasons coupled with his commitment to the Council as vice president of MACSC's Executive Committee that he was an obvious choice to be this year's award recipient."

The MACSC is a group of construction safety professionals dedicated to the protection of life and property in the construction industry. Each year, the Council solicits nominations from its membership for the Safety Professional of the Year Award, which recognizes a leader in the safety community with credentials, exemplary character and proven success.

Since joining The Graham Company's Safety Department in 2003, Jeff has specialized in providing ongoing safety consultation and training to clients in the construction industry. "His prowess at identifying both obvious and hidden safety risks and providing life-saving solutions makes him not only a valued employee, but a partner to the construction industry," said Ken Ewell, president and COO, The Graham Company. "On behalf of The Graham Company, we congratulate him on this well-deserved award."

Jeff serves as an authorized Construction Outreach Training instructor for the OSHA 10 and 30-hour programs and a master instructor for the OSHA Training Institute Education Center courses. He also serves as an accredited practical examiner for the National Commission for the Certification of Crane Operators for its Signal Person and Rigger Level I programs.

About The Graham Company
